

St. Edward's Catholic Primary School

Intent – Implementation – Impact

Subject: Modern Foreign Languages (French)

Intent

Our Modern Foreign Language curriculum aims to promote a positive attitude towards language learning and provide the children with a firm foundation for relevant studies at secondary school. The main language taught in our school is French, with an emphasis on skills useful in language learning in general.

Implementation

Yrs 3, 4, 5 and 6 have one dedicated MFL lesson a week, using the Primary Languages Network French Scheme of Work, which is carefully planned to meet the relevant requirements of the National Curriculum. This scheme ensures skills progression and equitable access, and allows for formative assessment. Positive attitudes are promoted via enjoyable and stimulating lessons.

Impact

Anecdotally, children enjoy French. Weekly evaluation of skills, knowledge, motivation and confidence informs planning. Termly teacher assessment of each child against learning objectives allows discrepancies to be addressed.
