World Wide Web
Only 4% of the Internet content.
Includes: public websites such as
Google, Amazon, Wikipedia, etc.

Deep Web
Over 90% of the Internet content.
Not accessible via search engines.
Includes: Government Resources,
Academic Information, Medical
Records, Subscription Information,
etc.

Dark Web
Only 6% of the Internet content.
Encrypted networks that need
special software to access.
Includes: Stolen and Illegal
Information, Illegal Pornography,
Drug Trafficking and many other
Illegal Sites

The Dark Web

What is the Dark Web? The Dark Web is a hidden part of the internet. The National Crime Agency in collaboration with The Children's Society and Marie Collins Foundation have created a resource to help explain what the Dark Web is. This resource is intended for professionals and parents and carers only. It is not intended for young people.

'Following Christ we reach our goals'

Anime

TV Anime refers to animations originating from Japan. Due to its cartoon style, your child might inadvertently watch it when it isn't appropriate for their age. Some Anime contains adult themes. It is important to check age ratings so a starting point could be Common Sense Media. They have created a list of some Anime TV with reviews/age ratings. Please see link below.

Emergency SOS calls

You can set up emergency SOS calls on your iPhone/Android, so it calls the emergency services even when you phone is locked. Here's how to set it up:

IPhone - At the same time, press and hold the side button and either volume button until the sliders appear. Once the countdown on Emergency SOS ends, release the buttons. You can also enable iPhone to start Emergency SOS when you press the side button five times.

Android - Press the power button five times or more. A five-second countdown begins before emergency services are called.
